Dear Madam Secretary,

I have found it quite frustrating and near impossible to provide for my own security.

I am and have been for quite some time treated at less than an enemy combatant by the United States of America, the Commonwealth of Pennsylvania, and the County and City of Lancaster.

I would like to know if there has been any executive ORDERS signed by the first Bush or Reagan when I began whistleblowing on International Signal & Control in 1987.

You may visit my website at www.amgglobalentertainmentgroup.com to review my situation; that warrants your intervention.

I am looking for any possible solutions and alternatives to living in the United States of America.

Live is too short; and quite honestly from my experience, this country is not worth fighting for or defending anymore.

How long can Lancaster County and Lancaster City hide me and Continue to Cover-Up my Whistle Blowing of the ISC Scandal?
